

1. Go to the URL: omscs-study.slack.com

The screenshot shows a web browser with the address bar displaying "Secure https://omscs-study.slack.com". An orange arrow points from the text "Go to this address" to the address bar. The Slack logo is in the top left, and links for "Product", "Pricing", and "Support" are in the top right. The main content area is titled "Sign in to OMSCS Study Group" with the subtext "omscs-study.slack.com". Below this, it says "Enter your email address and password." There are two input fields: the first contains "you@example.com" and the second contains "password". A green "Sign in" button is below the fields. Underneath the button is a checkbox labeled "Remember me" and two links: "Forgot password?" and "Forgot which email you used?". At the bottom, it says "If you have an @gatech.edu email address, you can create an account." Below that, it says "You're already signed in to this workspace:" followed by a button labeled "Deep Reinforcement Learning Nanodegree". At the very bottom, it says "Trying to create a workspace? Create a new workspace".

2. Click on "Create an account"

This screenshot is identical to the one above, showing the Slack sign-in page for the OMSCS Study Group workspace. However, an orange arrow points from the text "Click on 'Create an account'" to the "create an account" link in the text "If you have an @gatech.edu email address, you can create an account."

3. Add your GT email handle, and create an account

### An email is on its way.

mmorales34@gatech.edu

When your email arrives, click the link provided to complete signup.

#### 4. Go to your inbox and click on "Confirm Email"

#### 5. Finish filling out the registration form

This screenshot shows the Slack registration form for the "OMSCS Study Group" workspace. The URL in the browser is "https://omscs-study.slack.com/join/signup\_confirmed/enQtNDE4NTY4ODY0MjI0LWQwODU0YjM0N2NhNGJkM2QxY2RhOC". The form includes fields for "Full name" (filled with "Miguel Morales"), "Display name (optional)" (filled with "rldm"), and "Password (required)" (masked with dots). A progress bar shows the form is about halfway through. Below the password field, there is a checkbox for "It's ok to send me email about the Slack service." which is checked. A green "Next" button is at the bottom right. Annotations with arrows point to various parts of the form: "Fill out the form... it's not that hard." points to the top of the form; "Full name..." points to the full name field; "This is your '@' handle." points to the display name field; "You may want to disable this one..." points to the email opt-in checkbox; and "Hit 'Next'." points to the Next button.

**Fill out the form... it's not that hard.**

**Full name...**

**This is your "@" handle.**

**You may want to disable this one...**

**Hit "Next".**

**Join the Slack workspace OMSCS Study Group**

Full name  
Miguel Morales

Display name (optional)  
rldm

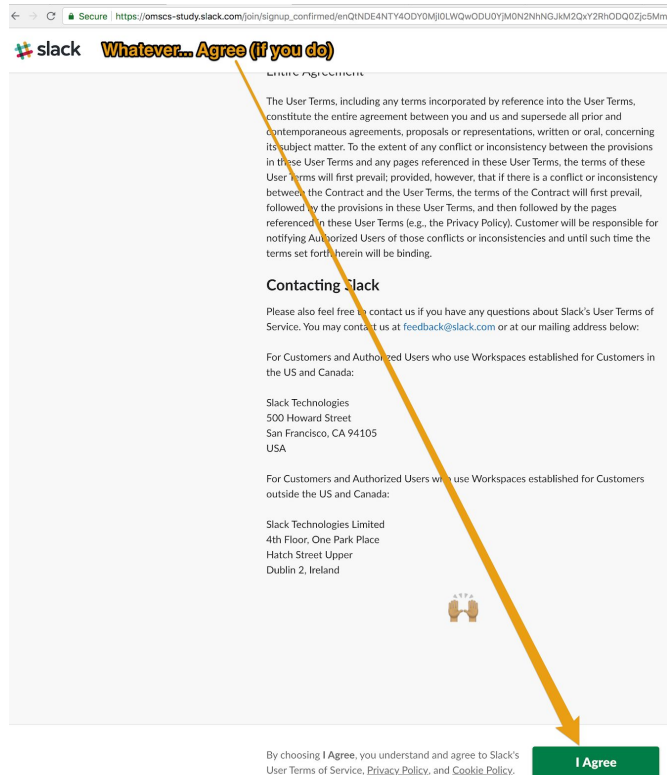

By default, Slack will use your full name — but you can choose something shorter if you'd like.

Password (required)  
.....

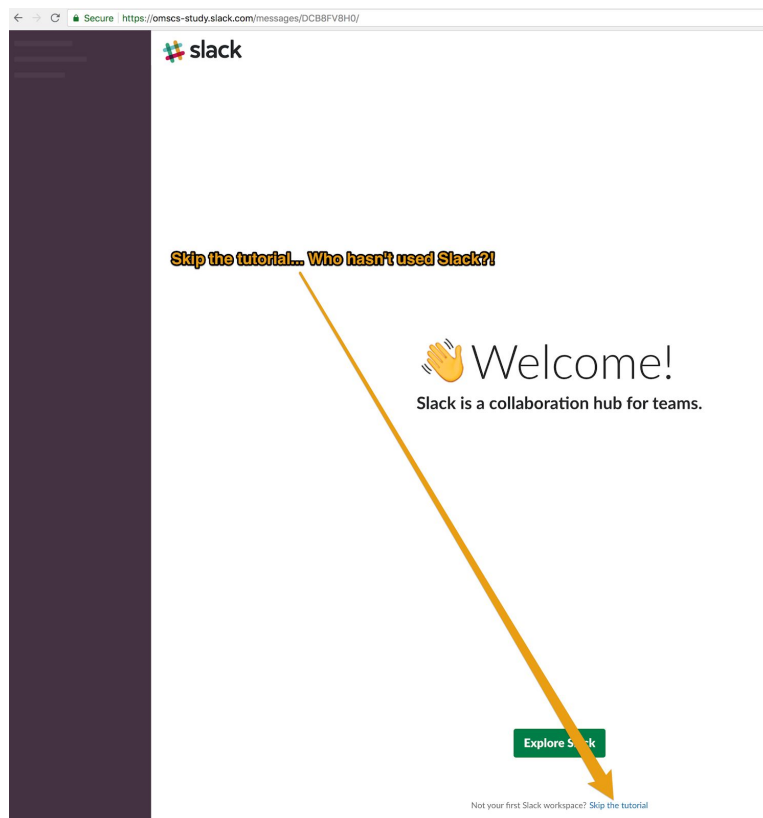

It's ok to send me email about the Slack service. ☒

**Join and say hi!!!**

**Tala** 1:17 PM  
Canvas is already active

**mimoralea** 1:25 PM  
it should be  
and Piazza too

**Tala** 1:31 PM  
Thank you  
 1

**Tala** 1:33 PM  
It's great that as a TA and someone writing an RL book that you're active in the channel. Greatly appreciate it

**brett\_tofel** 1:44 PM  
hey @jontay Do I remember you from CV or ML4T or both 😊?

**yi.sun** 1:47 PM  
How do I subscribe to the Canvas calendar of RL? [https://gatech.instructure.com/calendar?include\\_contexts=course\\_27919](https://gatech.instructure.com/calendar?include_contexts=course_27919) Trying to add it to my p

**Tala** 1:49 PM  
Do you use google calendar?

**yi.sun** 1:49 PM  
ya

**Tala** 1:49 PM  
<https://www.google.com/search?q=add+canvas+calendar+to+google+calendar&ie=UTF-8&oe=UTF-8&hl=en-us&client=safari>

**yi.sun** 1:49 PM  
i tried that, but what's the "link" from Canvas?  
the link i just posted, or the calendar feed from Canvas doesnt work.  
the "feed" is just my own Canvas calendar, not the one from the course.  
if i can "copy" RL canvas calendar to my own Canvas calendar, then i can use the "feed" link.  
and i dont know how to replicate RL canvas calendar to my own either

**Tala** 1:52 PM  
Ok  
Not at a pc but on phone app, calendar in canvas shows RL events

**yi.sun** 1:53 PM  
interesting, i see RL events in the calendar of my phone Canvas app too, but viewing my Canvas calendar from my own PC browser does not show R  
`include_contexts=course_27919` code above
